

Prevention, Treatment, and Recovery Locator.

FINDWELL NEW HAMPSHIRE

Prevention, Treatment, and Recovery Locator

About Findwell NH

FindWell New Hampshire is a collaborative initiative that serves as a prevention, treatment, and recovery locator for the Central New Hampshire region. FindWell was developed by partners of the Central New Hampshire Community Opioid Response to build awareness of local substance use disorder support services, improve access to resources, and to reduce stigma associated with substance misuse and addiction. FindWell's mission is to be the connection that empowers people to prevent, treat, and recover from substance misuse.

What We Do

It is never too early or too late to guide yourself or someone you know on a path to wellness. **While FindWell does not provide support services**, we partner and highlight organizations that offer prevention, treatment, and recovery services. **Use our site to help you find the resource that will best suit your needs.** This resource locator works with vetted organizations that offer reliable resources that build resilience within **Central New Hampshire** communities.

"We cannot think our way into a new way of acting. We must act our way into a new way of thinking".

Prevention

An informed person is an empowered person. Knowing the effects of drug and alcohol use and misuse can help empower us to make healthy and productive decisions. Through education and support, we can prevent the misuse of drugs and alcohol in ourselves and communities.

Treatment

Help is within reach. Treatment options are available in your community and can help guide you, your friend, a loved one or an acquaintance to a support service. Whether this is your first step or another try, we are here to help you find a solution that helps.

Recovery

Recovery may be a different road for everyone, but it does not have to be traveled alone. Find the community and support needed to help you, your friend, a loved one or an acquaintance continue their path toward a healthy and productive life.

Individuals

You are not alone. We will guide you to find the right resource for you. Help is in your community and we can help you get the support you need. Everyone deserves a happy and healthy life.

Family, Friends & Caregivers

It is never too early or too late to guide someone down a path to wellness. We can find the right resource and connect you with an expert to help you support your loved one, friend, or acquaintance.

Professionals & Service Providers

Find the SUD resources you want quickly. While we do not provide support services, we partner and highlight organizations that provide prevention, treatment, and recovery services. If your client or patient needs inpatient, outpatient, or support resources, we make your search easier.
